

Stock #: JHK-32-BC

Product Description:

2" "J" cable support hooks with a 1/4" beam clamp attachment are versatile and can be attached to a wide variety of structures using beam clamps, clips and other support components available from Garvin Industries. The beam clamp can swivel 360 degrees to secure the hook at any rotation. These support hooks eliminate the problem of point loads that can cause band width damage to sensitive cables such as fiber optic, CAT 5E, 6, 7 or many others. Garvin Industries' "J" cable support hooks are an inexpensive alternative to cable trays. They provide support to sensitive voice and data cables without causing stress. Their continuous wide base radius design supports the natural bends and curves of cable. This J-Hook has a cable fill rate of 80 Cat5E cables. Retainer Clip Included!

Product Specifications:

Fill Rate : 80 Cat5E cables

Compliance : CUL,RoHS Compliant,UL
