

ULTRAGREEN™ SERIES BATH FANS

Smart. Quiet. Faster installation.

NEW
LED

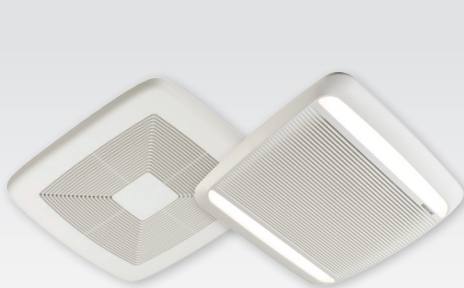

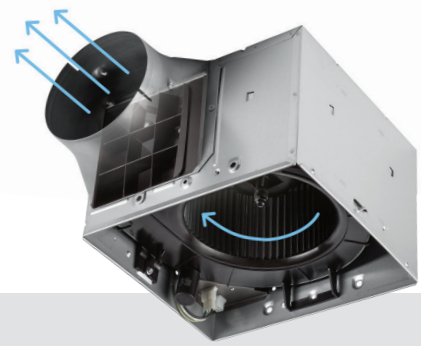

THE EFFICIENT, SMART CHOICE FOR MAINTAINING HEALTHIER INDOOR AIR IN TODAY'S TIGHTLY BUILT HOMES.

In spot applications or whole house, the flexibility of **ULTRAGREEN™** makes it possible to breathe easy and enjoy fresher air with continuous ventilation. Designed with advanced motor and sound technology, the continuous CFM levels of **ULTRAGREEN™** fans can be precisely adjusted to meet the specific needs of any room, while operating almost silently.

ULTRAGREEN™ Features QSTREAM™ Sound Technology

QSTREAM™ uses airflow-smoothing baffles to reduce turbulence turning the blower more slowly and quietly without airflow loss.

Not available on 110CFM ULTRAGREEN™ models

ULTRASMART™ PERFORMANCE

DC Motor and Control Technology monitors performance and adjusts motor speed to ensure rated air movement

- Adjustable continuous ventilation
- Adjustable run-time at maximum CFM

ULTRASILENT™ SOUND

ULTRASILENT™ Sound Technology provides the quietest sound rating available

- HVI certified at < 0.3 Sones
- State-of-the-art blower reduces turbulence

ULTRAQUICK™ INSTALLATION

ULTRAGREEN™ fans are engineered to deliver the fastest, easiest and most universal installations

- Expandable mounting frame adjusts to fit any type of joist, I-joist or truss construction
- System works in new construction or room-side retrofit installations

ULTRALUCULENT™ LED TECHNOLOGY

High-power, dual LEDs provide superior light intensity

- Dimmable LED can be adjusted to illuminate the room or provide a soft night light
- Long-life LEDs last up to 10,000 hours

ALSO AVAILABLE

Premium Radiation Dampers

Roof & Wall Caps

Sensaire® Humidity Sensing Switch
