

SPKL Series Fiber Optic Splitter Kits

Modify loose tube fiber cables to enable direct termination of industry standard 900um connectors.

Components:

SPKL Base

The SPKL Base contains the retainer clip, which is field crimped to the loose tube of the fiber cable.

SPKL Cover

The SPKL Cover snaps onto the base once the loose tube is crimped and the fibers have been routed through the terminal assembly.

SPKL Breakout Assembly

The SPKL Breakout Assembly includes the 900um color coded furcation tubes. Fibers route through the tubes for direct termination.
