DRILL TAPS WITH SMOOTHSTART™ TIP

SAVE TIME: DRILL, TAP AND DEBURR IN ONE
SINGLE OPERATION

3-FLUTE DESIGN

THE ELECTRICIAN'S
CHAMPION™ 

DRILL TAPS WITH SMOOTHSTART™ TIP

The IDEAL® line of combination drill taps combines the tasks of drilling, tapping and deburring all into one. Providing an economical way to save you valuable time on the project.

Constructed out of High Speed Steel (HSS) providing strength and durability, the bit has balanced hardened tapping edges with 1/4" hex shank that makes it compatible not only with cordless drills but also impact drivers.

Similar to the IDEAL® TKO™ Carbide Tipped Hole Cutters we have incorporated the SmoothStart™ tip which minimizes thread damage and extends the life of the bits.

While traditional drill taps have single or double flute design, IDEAL® Drill taps come with 3-flute design providing faster chip removal and minimizes binding while drilling. The deburring cutting edge provides a clean hole and prevents over drilling.

Rated for drilling and tapping up to 10 gauge mild steel, aluminum, copper, brass and even plastic. When it comes to quality, performance and durability, IDEAL® is the professional's choice for drill tap needs.

Individual Drill Taps

- 1/4 in. Hex Shank

36-6/32 36-8/32 36-10/24 36-10/32 36-12/24 36-1/4-20

Longest Lasting Drill Tap

Based on testing 1/4-20 drill tap in 10 AWG Mild Steel

Kit

- 8-piece kit includes sizes: 6-32, 8-32, 10-24, 10-32, 12-24 and 1/4-20 bit plus an extra 1/4-20 and 8-32
- Rugged, durable molded plastic case

Description	Part No.
Drill Tap Kit	36-600

DO NOT ROCK

For optimal performance:

- Recommended RPM range is 300 to 1500 RPM
- Use in Cordless Power Drills and Impact Drivers
- Use Cutting Oil to extend life of drill tap

⚠ WARNING Electrical and eye injury hazard. Contact with live voltage may cause injury or death. Do not use on or near live voltage. Wear eye protection.
