

Angled QuickPort® Patch Panels

APPLICATION

Angled QuickPort Patch Panels feature a customizable design for fiber and copper applications, accepting all QuickPort Snap-in Modules for optimum rack density on industry-standard racks. The panels feature an angled design to easily route cables into vertical cable managers, eliminating the need for horizontal, front cable management bars. Panels fit all industry-standard 19-inch racks and cabinets.

24-port panel, 1RU,
w/ magnifying lens

48-port panel, 2RU

72-port panel, 2RU

SPECIFICATION

Angled patch panels shall be made of 16-gauge steel, and shall have a black painted finish with numbers below each port. Panels with label holders shall be designed with holders above the ports and magnify the label printing. The panel shall be offered in 24-, 48-, and 72-port configurations. The panel shall have the ability to allow for single port replacement of inoperative ports.

DESIGN CONSIDERATIONS

- Cords route directly into vertical managers from angled panel, saving rack space by eliminating horizontal management
- High-density options: 48-port density in 1RU and 72-port in 2RU
- Compatible with QuickPort Cat 5e, Cat 6, and Cat 6A connectors
- Compatible with QuickPort fiber adapters
- Magnifying lens ensures visibility of port labels

DESIGN CONSIDERATIONS

- Mounts on 19-inch equipment racks
- Accepts all QuickPort Snap-in Modules
- Write-on blocks and port numbers are silk-screened in white
- Versions available with magnifying lens label holder

STANDARDS COMPLIANCE

ANSI/TIA-568-C.1
cULus Listed

PHYSICAL SPECIFICATIONS

Dimensions: See page 2
Materials: 16-gauge steel; matte-black painted finish
Mounting: 19-inch rack mount
Color: Black
