Q340A1082

30 mV Thermocouple with 11/32 32 Male Connector Nut connection and 30 in. leads

- [Locate Distributors](#)
- [Product Specifications](#)
- [Literature and Documents](#)

Overview

Thermocouples generate a thermoelectric current that senses a pilot flame on gas-fired heating systems. The pilot flame heats the tip of the thermocouple, producing a temperature differential between it and the base. This temperature difference generates a small amount of DC power, measured in millivolts.

Features

- Push-in clip, split nut, and adapter assembly for easy pilot burner installation.
- Spade or quick-connect terminals available for millivolt gas control connections.
- Male nut connector for Pilotstat® safety control power units.
- Available in a variety of lead lengths.

Product Specifications [→ Back To Top](#)

Voltage	30 mV
Connection Type	11/32 32 Male Connector Nut
Lead Length (in.)	30 in.
Lead Length (mm)	762 mm
Open Circuit Output (mV)	26 mV to 32 mV
Resistance	0.02 ohm
Temperature Ratings (F) Hot Junction	1400 F
Temperature Ratings (C) Hot Junction	760 C
Temperature Ratings (F) Cold Junction	780 F
