

OPB15-DW

Occupancy Sensor, Power Base, Adapter

Line Voltage to Low Voltage Power Base Adaptor. 15A, 120-230-277VAC 50/60Hz. For use with Leviton 24VDC Low Voltage ceiling mount and wall mount occupancy sensors only. NAFTA compliant. RoHS Compliant. Color: White

The OPB15 Power Base is a unique, patent-pending, 15 Amp power pack for low-voltage occupancy sensors packaged in a housing that forms the mounting base of these products. This allows for installations where only line-voltage circuitry is available while providing the full-line of Leviton low-voltage ceiling sensors to meet every application. The OPB15 Power Base provides all of the same features as the standard OSP Power Pack Series with a full rated 15 amp, zero cross relay with 24 VDC supply. The Power Base Adapter converts any Leviton low voltage ceiling occupancy sensor to a self-contained, line voltage unit, with 15 Amp, 120-277V load capacity.

Color :  White

UPC Code : 078477299678

Country Of Origin : Mexico

Technical Information

Electrical Specifications

Frequency : 50/60Hz

Voltage : 120/230/277 VAC

Standards and Certifications

Title 24 Compliant : Yes

Product Features

Color : White

Grade : Commercial

Mounting Type : Ceiling

Product Line : OPB15

Sensor Type : Accessory

Features and Benefits

- Converts any Leviton low-voltage ceiling sensor to line-voltage (Patent-Pending)
- Mounts to standard 2.125 inch deep X 4 inch octagon or 2.125 inch deep X 4 inch foursquare electrical boxes (foursquare box requires a two-gang mud ring)
- Simple installation
- Ideal for retrofit or new construction applications
- Zero crossing circuitry provides increased durability
