String-O-Lights: Low Cost Temporary Lighting

McGill offers a variety of temporary job site lighting systems from reusable, low cost cable versions to an assortment of open conductor styles. They are available in 50' to 200' lengths of 2- and 3-conductor and 12 and 14 gauge wire with 5 to 10 cage/socket assemblies. Brass sockets are enclosed in weather-resistant molded PVC, and plastic connectors provide greater reliability. Patented packaging provides tangle-free, hassle-free, on-the-job handling and installation.

Patented, easy-open cages snap open and closed for faster installation without tools and easy lamp replacements. Yellow plastic cages are fastened to sockets by a non-corrosive collar and accommodate up to 200 watt bulbs.

- Cable styles meet 2002 NEC requirements.
- UL Listed and CSA Recognized versions available.
- Meets OSHA requirements.
- 110' messenger wire available to support string where needed.
- Non-corrosive cage design.
- Accommodates up to 200 watt bulbs.
- Easy relamping feature.
- Weather-resistant sockets.
- All parts sold separately.
