# BIG-SP

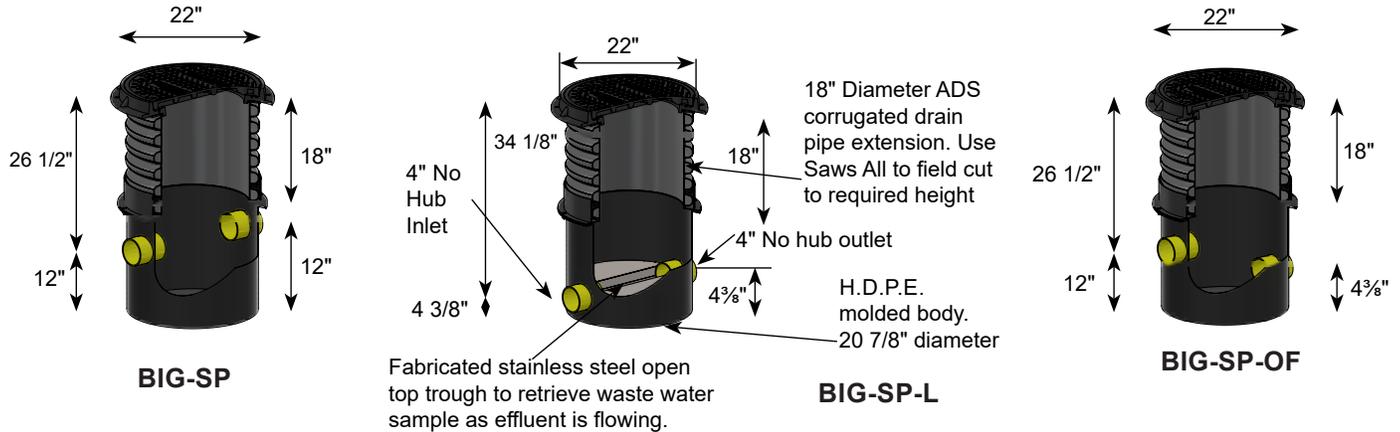

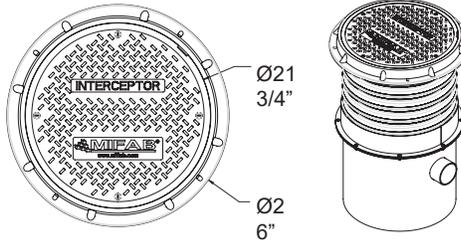

# Big Max® – BELOW GROUND SAMPLE PORTS

**Specification:** MIFAB® H.D.P.E. sample port with H-20, 20,000 lbs. load rated lid and corrugated ADS pipe extension to meet the finished grade. Complete with 20 7/8" diameter body and 4" no hub inlet and outlet connections.

**Function:** Several areas require the use of sampling ports to provide the local authorities an opportunity to retrieve and test waste water discharged from the grease interceptor to ensure that the FOG contained within the effluent is within requirements.

MIFAB's Big Max BIG-500, BIG-750 and BIG-1150 grease interceptors are all tested and certified to the ODI G-101 Standard.

Model No.	Description
<b>BIG-SP</b>	External sampling port - inline high connections
<b>BIG-SP-L</b>	External sampling port - inline low connections
<b>BIG-SP-OF</b>	External sampling port - offset
