

EL 24INX36INX3IN PLASTIC EQUIPMENT PAD

Item#: **EL2436-3**

The E Lite® EL2436-3 is a 24x36x3 in. gray plastic pad designed as a mounting base for condenser equipment. E Lite® is injection molded from polypropylene, creating a pad that is lightweight, but durable. It is constructed with generous ribbing for optimum strength and self leveling ground support. It is made with 98% recycled, UV inhibited material resulting in an environmentally friendly, weather resistant equipment pad.

Product Features & Benefits

- E Lite® is made from plastic (polypropylene), resulting in a pad that is lightweight and durable
- Engineered with uniform and generous ribbing for level loading, optimum strength and self-leveling ground support
- Unaffected by UV exposure or extreme weather
- Environmentally friendly, made from 98% recycled plastic
- A subtle texture on pad surface prevents unit slide
- Each pad is constructed with its size in raised letters on the side of the pad for easy identification
- Tested per ASTM D2299 with refrigerants, synthetic canine urine, compressor oil or salt solution.
- Drillable making it easy to secure equipment to the pad if necessary
- Made in the USA

Specifications

Color	Gray	Texture	Subtle
Drillable	Yes	Ducted or Ductless	Ductless
Load Capacity	1080 lb.	Product Length	24 in.
Nestable	No	Product Width	36 in.
Rating	UV Resistant	Product Height	3 in.
Shape	Rectangular
