

# Bare Fiber PLC Splitters

Ideal for FTTx PON Networks, Planar lightwave circuit (PLC) splitters offer a compact size, high reliability, and wide operating wavelength range. With today's distributed networks PLC splitters are the perfect low cost solution to support any application requiring uniform optical power splitting from 1x2 up to 2x64 combinations. Install anywhere within the network, including rackmount, FDH Panels, Splice Cases, or Fiber Optic Termination NID.
