

Weatherproof “While-In-Use” Receptacle Covers

BWF Product Benefits & Features

- Choose from high-impact polycarbonate construction or heavy duty die cast covers for more severe applications, such as schools and commercial buildings
- Both meet NEC Article 410-57(b). The code requires receptacles be protected in outdoor or other wet locations with the cord set plugged in, unless the receptacle is attended.
- All covers are shipped with gasket, mounting screws, base and cover assembly, two inserts and complete “easy-to-install” instructions.
- Covers may be mounted to a box or device.
- When security is important, there are covers available with a lockable hasp.
- Flexibility in the field: covers combined with one of the 26 rotating, snap-in, inserts will meet any installation requirement.

COMPLIANCES

- UL Listed - CSA Certified
- NEMA 3R rated

APPLICATIONS

- Where weatherproof protection is required while an outlet is in use, such as; bug zappers, holiday lighting, low voltage lighting, soda machines, portable spas, engine block heater, irrigation pond pumps, etc.

MEETS 2002 NEC 406.8(B) (1) Receptacles installed outdoors in a wet location must have an enclosure that is weatherproof when you insert the attachment plug.

HIGH IMPACT CLEAR POLYCARBONATE “WHILE-IN-USE” COVERS

gasket, mounting screws, base & cover assembly, 2 inserts included
