## MINI-SPLIT BIB KIT 360

Item#: **MSB-360-KIT**

The Mini-Split Bib Kit 360 is the most complete way to clean ductless mini-split coils, blower wheels and more. This kit allows you to safely and quickly clean virtually any mini-split system the correct way using pressurized water on coils, blower wheels, and more. The patented technology keeps water away from walls, ceilings, and other surroundings and directs it into the 5 gallon bucket for disposal, so it's clean and safe all around.

### Product Features & Benefits

- Fits virtually any brand ductless fan unit up to 44 in
- Keeps walls and surroundings safe from water and cleaning chemicals
- Quick to set up and easy to move from job-to-job
- 8 ft hose funnels all coil cleaner and water safely into included 5-gallon bucket for easy transport and disposal
- Strong 6 mil plastic bib with sonic welded seams
- Reusable Bib = lower cost of ownership
- Complete kit: 360 Bib, adjustable mounting brackets, 5 gallon bucket

### Specifications

|   |                           |  |                          |
|---|---------------------------|--|--------------------------|
| Integrated Angle Gauge                  | No                        | Dilution Ratio Evaporators - Medium Dirt | N/A                      |
| Application                             | Ductless Mini-Split Units | Foaming Level                            | N/A                      |
| Container Size                          | 5 gal.                    | Indoor / Outdoor Use                     | Indoor                   |
| Container Type                          | Bucket                    | No Rinse Formula                         | No                       |
| Base Formula                            | N/A                       | Ducted or Ductless                       | Both Ducted and Ductless |
| Cleaning Strength                       | N/A                       | Shippable UoM                            | Ship by Each             |
| Dilution Ratio Condensers - Medium Dirt | N/A                       |  |                          |
