DÉCOR ASSIST™  
BATH ACCESSORIES

Available fourth quarter, 2013

The beauty is in what you don't see.

Just because someone requires some sure support doesn't mean they necessarily want to call attention to it. With new Delta® Décor Assist accessories, you can help ensure that safety and style are not merely built into the bathroom—but blended gracefully.

Through thoughtful design, we've subtly integrated a stable grab bar into various everyday bathroom elements, including towel bars, tissue holders and corner shelves. In essence, the good looks get noticed, not the concealed function. Décor Assist accessories are available in traditional, transitional and contemporary styles. And in true Delta fashion, you'll also have the right finish options to match our other products and complement any setting.

An answer to a growing need in assisted living, medical, multi-family and aging-in-place environments, Delta is pleased to offer the support that empowers people to live as confidently and independently as possible.
