

ProSeal Flex Couplings

New!

Stainless Steel Shielded Transition Couplings
designed for resistance to shear forces as well as corrosion.

PASCO's ProSeal Flex Couplings allow the plumber to make a wide variety of transition pipe connections.
ProSeal Flex Couplings connect cast iron, plastic, copper, steel and tubular DWV systems.

- Meet ASTM C1460 and CSA B602.
- All 300 Series Stainless Steel Band and Clamp.
- Neoprene ASTM C564 gasket material.
- Clamp joined to shield with rivets, not welds.

58-CP Series
