

### Wash-Down: Standard

Sloan wash-down urinals come in four flush volume choices\*:

- 1/8 gpf
- 1/4 gpf
- 1/2 gpf
- 1 gpf

The urinals are IAPMO® tested and listed, ensuring high performance.

Wash-down urinals match perfectly with Sloan's industry-leading manual or sensor-activated flushometers.

### Wash-Down: Retrofit

These urinals feature a larger footprint to help hide original fixture caulk lines and damage. Retrofit urinals are available in three flush volume choices:

- 1/8 gpf
- 1/4 gpf
- 1/2 gpf

WES-2000

WES-4000

WES-5000

### Waterfree Urinals

Wall-hung Waterfree Urinals use absolutely no water. Instead, a replaceable cartridge filters sediment and traps odors. Urinals install on regular drain lines for retrofit ease and are ideal for new construction as well. Four styles are available.

### Sloan Waterfree Urinals:

Provide 100% water savings

Eliminate water and sewer costs

Promote hygienic, odor-free restrooms.

\*Consult individual product specification sheets for specific flow rates.
